

# CARIBBEAN POWERHOUSE

**A**LISON ANTROBUS.

Those who know her immediately say: "How does she do it all?"

A true Multihyphenate, mother of two young children, a wife, and mentor to many, Alison has designed the interiors of some of the most prestigious homes from Miami to LA, Award winning Hospitality Projects, A Design Patented handbag, rugs, fashion, and accessories, just to name a few creative ventures under her wings for which she says, "I am only just getting started!"

Born in Jamaica to a Grenadian mother, Vincentian Father, and raised in Barbados, Alison credits her design foundation and ethos to her Caribbean heritage, her unique academic training at The Rhode Island School of Design, where she earned her Bachelor's Degree in Architecture and Interior Architecture and her "apprenticeship" with iconic Designers such as Philippe Starck, and Axel Vervoordt. "Working with them became my version of a Masters Degree that has forever changed my lens and approach to the Design and Decorative Arts.

Whilst her solo venture began in 2002 with a focus on Luxury Residential Interiors, Alison's innate talent as a Visual Artist allows her to explore Interior and Product Design through the lens of a Painter, Sculptor, Fashion Designer and Artist resulting in layered details intended to relay the narrative unique to each project. It is this multitude of talent and memorable projects that has made her name, Alison Antrobus, eponymous with sheer brilliance!
